About Me

As a developer, I specialize in web application development, from conception to implementation. I have taken on key roles as a **Front-end Developer** and **Back-end Developer**, providing a comprehensive vision to the team. I am passionate about creating solutions that align with innovation and quality, values I consider essential. My reputation is built on my commitment, responsibility, and ability to work efficiently under pressure. I am **highly collaborative** and always open to continuous learning. I am excited to join your team and contribute to your projects.

Technologies I'm Interested In

- Next.js
- NestJS
- Docker
- TypeScript

Other Key Technologies:

- JavaScript
- React / React Native
- Node.js / Express
- GraphQL
- SQL Databases (Postgres) / NoSQL
- Git / GitHub
- Tailwind CSS
- Serverless / Cloud (AWS, Vercel, Firebase)
- Testing (Jest, Cypress, Playwright)

Languages

Spanish: Native / English: 75%

Professional Experience

Front-end Developer

Muta

- At MUTA, I had the opportunity to contribute to the development of modern and scalable interfaces in the recycling sector, using Next.js, Tailwind CSS, Redux Toolkit, TypeScript, Jest, Formik, and Framer Motion. I transformed Figma designs into intuitive and optimized experiences.

I applied principles such as Screaming Architecture, SOLID, and DRY to ensure clean, maintainable, and efficient code. Additionally, I implemented unit tests with Jest to guarantee the quality and evolution of the product.

Back-end Developer

Horus Smart Energy

- I have significantly contributed to the development of an innovative IoT product. My role includes maintaining and improving existing logic, as well as implementing new features, standing out for my ability to apply a high level of programming logic. I have a deep interest in the product, applying best practices and writing scalable code. Additionally, my previous experience in Front-end development has given me a comprehensive understanding of software development.

Front-end Developer.

Vini App S.A.S.

- As a freelance developer at Vini App, I integrated new features and updated and implemented pages, following the Figma design concept. This reflects my autonomous and proactive approach to innovative projects.

Front-end Developer.

Genomax Nexus Information Technologies S.A.S

- As a Developer at Genomax, I closely collaborated with a development team to transform creative concepts into engaging user interfaces using HTML, CSS, and JavaScript. My focus on performance optimization, usability, and cross-platform adaptability was key to the project's success.
